COMPTROLLER'S MEMORANDUM NO. 2001-24

TO: Heads of Departments and Agencies

ATTN: Administrative and Fiscal Officers

SUBJECT: Computer-Printable State Accounting Forms

This memorandum is to inform departments that several of the more highly used State Accounting Forms (SAFORMS) have been developed using Microsoft Excel, and is available for your department's use. These forms can be filled-in using Excel and printed using HP Laser printers. Using computer-printable SAFORMS is more efficient than manually typing on pre-printed forms, and should provide your department with cost savings, as pre-printed forms would not have to be purchased.

Attached for your information is the list of the approved computer-printable SAFORMS and the First Hawaiian Bank Stop Payment Order form. Please note that there are several versions of the same form. The difference is the version of the software and the printer model. Using a particular version of the form that does not match your version of Excel and printer model will result in problems when printing the form. As a result, matching the correct version of the form to the specific version of Excel and printer model is very important. We can provide assistance if you need to use a different printer.

To provide for maximum processing efficiency, the uniformity (format, size, color and weight of paper, and ink color) of the computer-printable SAFORM is very important. As such, before using any computer-printable SAFORMS, your department will be asked to submit filled-in samples of the form printed on your department's printer for our review. If the samples are close to the standard form, your department will receive our verbal permission to proceed with the use of the form(s).
